FYI

Here is what CDFW provided to Reclamation on SCAMPI II period costs. It looks like there will be more of a focus on DWR positioning ourselves to receive federal funds. I had a good chat with Lobo on this today and there is a push from our Director on this. I have let Ted and Dave know we only have minimal capacity to work on CVPIA.

Happy New Year Jacob!

Attached are the files we sent to Reclamation with our expenditures under SCAMPI II. I just sent out a meeting invite for next Monday to talk through this more. If that time doesn't work for you, please propose something else.

Thanks,

Kristal

Kristal,

Happy New Year!! I hope all is well and would be great to chat soon.

I would really appreciate your thoughts on CVPIA. I'm trying to formulate an approach where California receives these stable sources of funding for our agency. We can't pass it this up and any future updates may be more favorable.

I'm meeting with DWR leadership next Wednesday and have my opportunity to pitch what I think we need to do. Being that I'm currently in the process of receiving CVPIA funds for drought barrier removal, engaging with Reclamation on a new agreement may be a good idea.

Also can you please resend me whatever you sent to Reclamation when they were asking for SCAMPI II costs? I will need to provide them an update on DWR's costs to get the discussion going. Without any signed task orders there is nothing to reconcile, so no money can change hands. Still providing an update will good relationship wise.

Let's catch up when we can.

Thank you,
